

Create Inclusive Experiences Online with the Recite Me Assistive Toolbar

The Recite Me Toolbar allows website visitors to customise their browsing experience for improved ease of use and understanding. It supports users with a range of needs, including sight loss, cognitive impairments, neurodivergent traits, and physical disabilities.

Customisation Options Include:

-  Text-to-speech functionality.
-  Adjustable colour contrast between the text and backgrounds.
-  Font type, size, and spacing customisation.
-  Remove graphics for reduced visual distractions.
-  Zoom functionality to focus on specific sections.
-  Integrated spell-checker, dictionary, and thesaurus.
-  Text translation in over 100 languages and text-to-speech in 65 languages.

Once activated, these settings remain consistent across all websites where the toolbar is embedded, ensuring a seamless user experience.

Toolbar User Guide

Scan the QR for your guide to all the features of the Recite Me Accessibility Toolbar. Here you'll find a guide to using all of the features on the Recite Me toolbar, as well as keyboard shortcuts and FAQs.
