

Create Inclusive Experiences Online with Accessibility Software

Recite Me website accessibility software provides every online user with the tools they need to customize a site in a way that works best for them.

Why Create Inclusive Online Experiences?

In today's world, everything we do is online, from booking holidays and shopping, to looking after finances. Every website user deserves an inclusive online experience to be able to navigate and consume content hassle free.

The RIGHT Thing to Do

Make your website inclusive to all by supporting people who are neurodiverse, visually impaired, elderly or speak English as a second language.

The SMART Thing to Do

Providing accessibility technology increases web traffic, engagement and ultimately leads to more uptake and sales conversions.

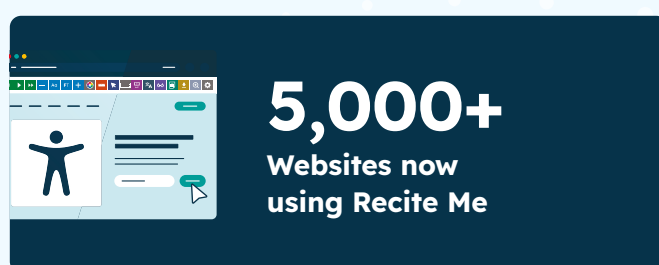

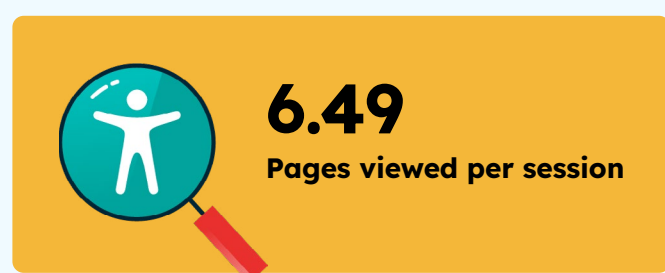

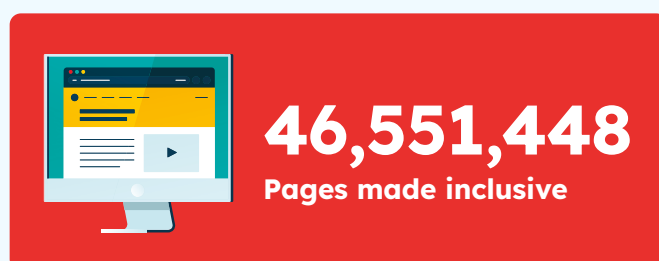

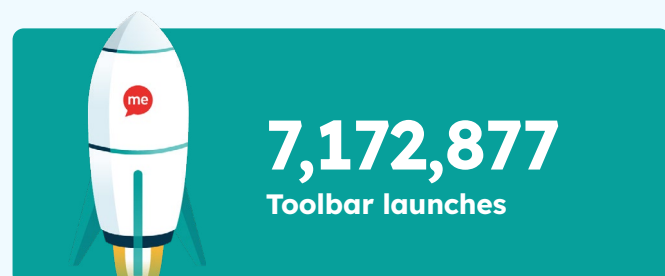

The Thing I MUST Do

There are several international and regional laws plus many local regulations that stipulate how a website should be designed and built.

Recite Me 2024 Data Overview

Over 1 billion people worldwide encounter barriers when trying to read and understand content online. This can be due to disabilities, learning difficulties, visual impairments, or if people speak English as a second language

Recite Me Toolbar

The Recite Me cloud-based technology toolbar makes your website digitally inclusive by allowing visitors to customize your content so that they can consume it in ways that work best for them.

Text to Speech

Our text to speech feature will help website visitors to perceive and understand your digital content by reading aloud website text, which can be customized to suit the viewer.

Reading Aids

To simplify use and support your website visitors, the accessibility toolbar provides several main tools; ruler, screen mask, dictionary, page summarizer and content simplifier.

Styling & Customisation

The Recite Me Toolbar allows people to change the way a website looks. Users are able to customize the website's color scheme as well as the text, font style, size, color, and spacing.

Translation

Recite Me web accessibility technology quickly and easily translates all your web content into over 100 languages, including 65 text to speech voices.

Start Your Digital Inclusion Journey

Online accessibility is a journey, not a destination. Recite Me and its partners are here to help you make that first step into the online accessibility journey. Contact us to kick start your accessibility journey today
