Recite me

ASSISTIVE TOOLBAR

Create Customisable Experiences to Suit Individual Needs

The Recite Me Assistive Toolbar makes your website digitally inclusive by allowing visitors to customise your content so that they can consume it in ways that work best for them.

Text to Speech & Translation

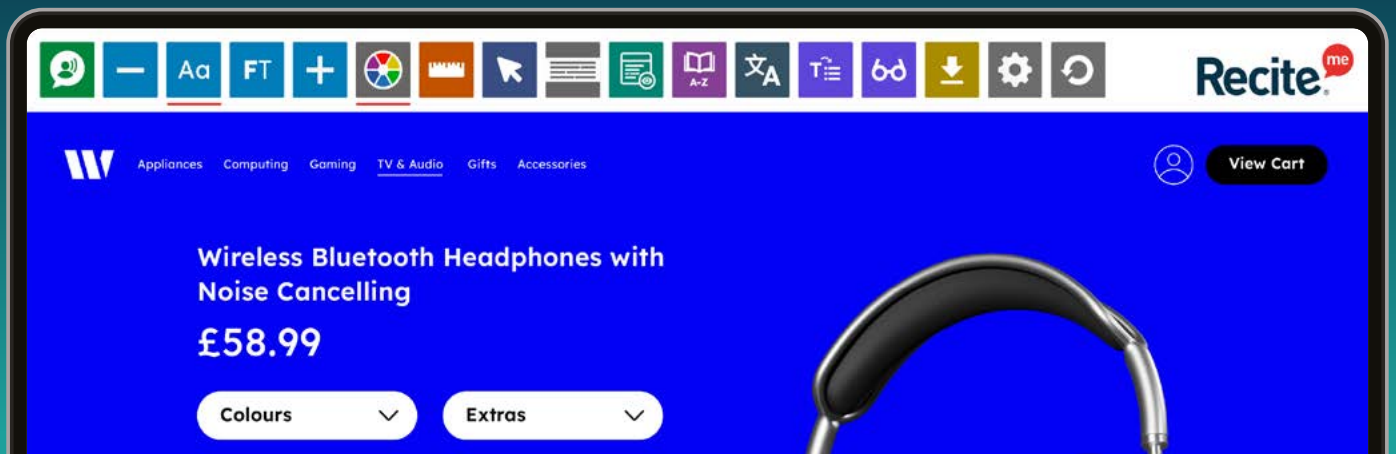

Our text to speech, as well as our AI powered Translation feature, can all be customised to suit the viewer's preferences.

Customisation & Styling

Our toolbar allows people to change the way a website looks. Users are able to customise the colour scheme, fonts, size, and spacing.

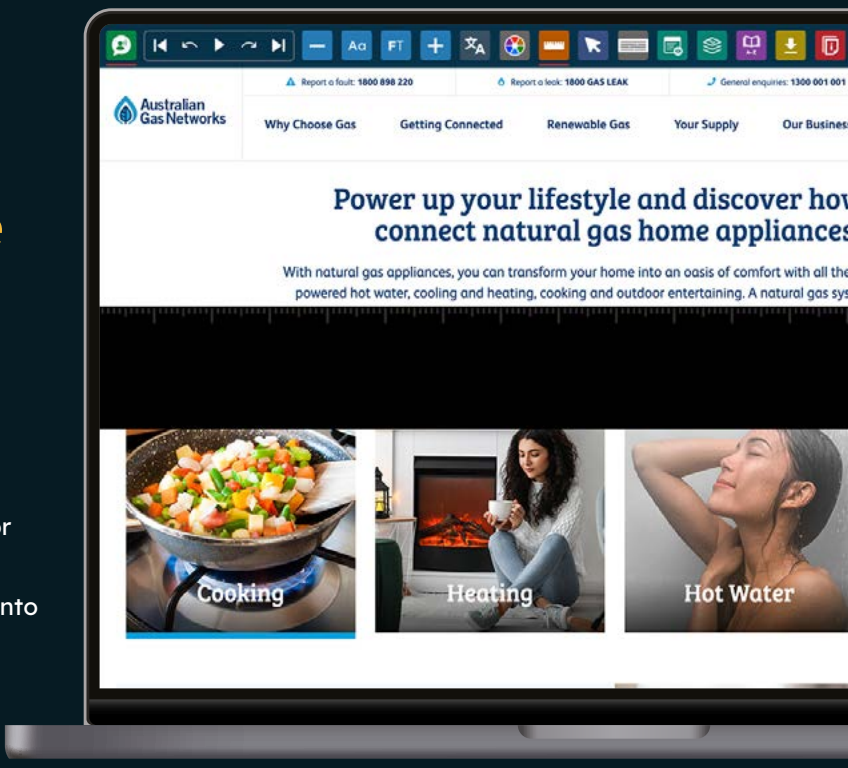

Reading Aids

Over 10% of people have a learning disability, so reading online can be a challenge. Simplify content and support your users with our reading aids.

Australian Gas Infrastructure Group Offers a Customisable Experience For All Website Visitors.

By incorporating the Recite Me Assistive Toolbar across its website, AGIG offers a customisable digital experience allowing users to convert text to speech for easier reading. As well as adjust font sizes and colour contrast for improved visibility and translate content into multiple languages for better communication.

"Recite Me was pretty simple to get approval on internally, as this was about safety, and this goes right back to our core value of providing safe and reliable gas. Recite Me was financially really good, particularly for the reporting requirements we have."

Kylie Dobson,
Customer Strategy Manager, AGIG

Australian Gas Networks

Integrating with any Platform

Recite Me works seamlessly with any HTML-based platform, including websites, intranets, LMS platforms, recruitment systems, and many more

WIX · WordPress · weebly · SQUARESPACE · umbraco · Drupal™ · moodle · SharePoint
